## **Rules of the Georgia Clean Fueled Fleets Program**

### **Enforcement**

This document was prepared for the Georgia Department of Natural Resources / Environmental Protection Division (EPD) by Clean Air Action, with the assistance of grants from the US Environmental Protection Agency.

In case of conflict between information included here and in the Georgia Rules for the Clean Fueled Fleets Program (Chapter 391-3-22, as amended), the Rules take precedence.

A copy of the Rules is included in the final section of this workbook.

# Overview of the Clean Fueled Fleets Program Workbook

## Introduction

- The basics of air quality.
- Explanation of the Clean Fueled Fleets Program and other regulations.

## Covered Fleets

- Four steps to determine if your fleet is covered under the Clean Fueled Fleets Program.

## Capable of Being Centrally Fueled

- If your fleet is not centrally fueled, follow these steps to determine if some vehicles in your fleet are *capable* of being centrally fueled.
- This section generates a ratio that is applied to your vehicle purchases and *reduces* the number of Clean Fueled Vehicles that your fleet must acquire.

## Purchase Requirements

- Steps to follow to determine how many Clean Fueled Vehicles must be acquired by covered fleets.

## Purchase Credit Program

- Description of how to obtain and use purchase credits for covered vehicle purchases.

## Annual Report

- Instructions and forms to use for the annual reporting process.

## Appendix
